Dhaka, Bangladesh

LANGUAGE

- Bangla
- English

CORE COMPETENCIES

- Front-End Development (React)
- Responsive, User-Friendly UI
- REST API Integration
- Component-Based Design
- Problem-Solving & Debugging
- Code Review & Collaboration
- Technical Documentation
- Technical Communication Skills
- Eagerness to Learn & Take Feedback

COMPUTER SKILLS

- React, Vite & JavaScript
- HTML, CSS & Tailwind CSS
- Git & GitHub
- Python Programming
- Java & C Programming
- MySQL & SQL
- Machine Learning & PyTorch

ACHIEVEMENTS

- 100% Merit Scholarship
- Dean's Scholarship
- MedhaLalon Scholarship

CERTIFICATIONS

- Graphic Design — Course Completion
- Microsoft Word — Course Completion
- Programming Contest — CSE FEST 2024 (EWU)

REFERENCE

DR. AHMED WASIF REZA

Professor, Dept. of CSE & Dean,
Faculty of Sciences and Engineering
East West University
A/2, Jahurul Islam Avenue, Jahurul Islam City,
Aftabnagar, Dhaka-1212, Bangladesh
Ext: 394, Room 646
Email: wasif@ewubd.edu

CAREER OBJECTIVE

CSE undergraduate with hands-on React experience, applying it to a Vite + Tailwind CSS web platform (AgroMart) backed by an Express/Supabase API. Seeking the Front-End Developer Intern role at Inforisen to build responsive, maintainable user interfaces, learn from senior developers through code reviews, and grow into a full-time front-end engineer.

EDUCATION

BACHELOR OF SCIENCE

Computer Science and Engineering - East West University
On going | CGPA: 3.71/4.00

HIGHER SECONDARY CERTIFICATE - 2021

Science - BAF Shaheen College
5.00/5.00

SECONDARY SCHOOL CERTIFICATE - 2019

Science - Motijheel Government Girls' High School
5.00/5.00

TECHNICAL SKILLS

- **Front-End:** React, Vite, JavaScript, HTML, CSS, Tailwind CSS, Framer Motion, responsive layouts
- **Back-End & APIs:** Express (REST API), Supabase, PostgreSQL, MySQL, SQL
- **Tools:** Git, GitHub, Kaggle, LaTeX, draw.io, project management
- **Programming:** JavaScript, Python, Java, C
- **Machine Learning & AI:** PyTorch, self-supervised learning (SimCLR, BYOL, MAE), knowledge distillation

SELECTED PROJECTS

AgroMart - Agricultural Supply Chain Platform (GitHub)

- Built a full-stack agricultural supply chain platform with a React + Vite front end styled in Tailwind CSS, with Framer Motion animations and onboarding/login flows.
- Connected the UI to an Express REST API and Supabase/PostgreSQL backend; features include weather-aware pricing, provenance tracking, and IoT-based monitoring.

Tic Tac Toe-Java Swing (GitHub)

- Designed a Java Swing app with a minimax-based AI opponent, multiple visual themes, and an in-game hint system.

KALKE KORBO-git-standup-ai (gsa)-python (GitHub)

- Developed a Python CLI multi-agent tool that converts Git commit history into AI-generated daily standup reports.

Vehicle Management System (VMS)-Oracle Apex

- Implemented a web-based VMS in Oracle APEX with a SQL backend for record and transaction management.

Penguin Jump: Multiplication Race-C

- Built a C console game teaching multiplication tables while reinforcing registers, memory management, and file I/O.

OTHER PROJECTS

- Truck Lagbe (truck-hiring platform, IT project management)
- Hospital Management System
- Student Record Management System
- Travel Planner (graph-based routing)
- Cache Partitioning Scheme in Multi-Core Processors
- Green Computing Awareness

- Multi-Facility Campus Network Design (EIGRP, VLSM, DHCP/DNS)

PUBLICATIONS & RESEARCH

UltrasoundNet: Deep Learning for Self-Supervised Breast Tumor Classification

- Presented at the 4th International Conference on Innovations in Data Analytics (ICIDA 2025), December 5–6, 2025; published in Springer Nature proceedings.
- Published on ResearchGate: researchgate.net/publication/414072384
- Co-authored with Wasimul Bari Rahat, Sadman Ryan, Rukaiya Binta Hossain, Sarfaraz Ahamed Shovon, Israt Jahan, and Ahmed Wasif Reza.
- Currently extending the research into medical image analysis using deep learning.

PROFESSIONAL STRENGTHS

- Hands-on React and Tailwind CSS experience, plus a software engineering foundation spanning full-stack development, systems-level C programming, and applied algorithmic problem-solving.
- Comfortable working with REST APIs, Git/GitHub workflows, and turning requirements into working software.
- Research-oriented mindset with strong analytical problem-solving, and a willingness to ask for help and learn quickly.

DECLARATION

I hereby, declare to the best of my knowledge and belief that this CV correctly describes my qualifications and me.
